

## CL 803

### Cleaning agents

#### APPLICATION:

This product is intended for cleaning and polishing of surfaces in one working step. On heavily polluted surfaces, the product may be used undiluted or diluted with water on normally polluted surfaces. This product is intended, in particular, for surfaces prone to damage or loss of gloss, such as polished marble, granite, as well as natural and artificial stone. The cleaning agent contains very fine and neutral surfactants which also effectively remove resistant impurities. It can also be used for plastic materials. Surfaces to be cleaned must always be thoroughly rinsed with clean water.

**COMPOSITION:** Non-ionic and anionic surfactants, alkyl polyglucosides, sulfonic acids, high-molecular-weight alcohols, and perfumes.

Amount of water	Dosage of CL 803 according to the degree of contamination* [ml]		
	1	2	3
1 litre	2	6	10
10 litres	20	60	100
pH of solution	8.1	7.8	7.6
Approximate coverage:	1 litre of this product is intended for 2000 to 400 m <sup>2</sup> of surfaces to be cleaned		

\*) If the table fields remain empty, the product is used undiluted.

#### PROCESSING:

Application on floor surfaces is performed manually, using either a mop or a floor washing machine. For maintenance of window sills, worktops, bars, and the like, it is suitable to use a sprayer and a micro-fibre cloth. Sponges with white or red pads, and micro-fibres, are other suitable means. Finally, surfaces should be rinsed thoroughly with water. While handling the product, the use of protective working equipment is necessary.

#### CAUTION:

- Before using this product, please read the instructions for use carefully, and follow the manufacturer's instructions.
- Avoid contact with eyes – it is necessary to use safety goggles.
- Avoid excessive contact of the product with skin and eyes, and work in a well ventilated area.
- When working, do not smoke, drink, or work near children.
- After dilution of the product to less than 30% solution, the product does not fall under the classification of hazardous chemical substances.
- Unused residues and contaminated containers should be disposed as of hazardous wastes (see the Safety Data Sheet).
- Only completely emptied and clean packaging may be handed over for recycling.

#### FIRST AID:

In the event of health problems, or if in doubt, contact your doctor. If unconscious, place the victim in the recovery, side position with the head slightly tilted back, establish a clear airway, and never induce vomiting. If inhaled, leave the contaminated workplace, and act upon symptoms. In contact with skin, take off contaminated clothing, and rinse the skin with clean water and soap. Apply an appropriate cream to irritated places. After eye contact, rinse with clean water for at least 15 minutes, possibly with forcibly opened eye lids, and seek medical advice. If swallowed, rinse mouth with water (only if the victim is conscious); never induce vomiting. Do not drink water. If the symptoms of any affection (irritation) caused by contact with the product do not subside after providing first aid, seek medical advice.

### TECHNICKÝ LIST /

#### SAFETY AND HYGIENE REGULATIONS:

Warning symbol:	<b>Xi irritant</b>
R 36	Irritating to eyes.
S 2	Keep out of the reach of children.
S 25	Avoid contact with eyes.
S 26	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S 46	If swallowed, seek medical advice immediately and show this container or label.

#### STORAGE:

- Store in a ventilated place, protected from excess atmospheric moisture and sunlight.
- If the product is stored under these conditions at temperatures from + 5°C to + 30°C, the shelf life is 36 months. The expiration date is specified on the packaging.
- Maximum permissible quantity of the product for the recommended storage conditions: 500,000 ml.

#### SHIPPING:

750 ml PE bottle with a protective cap – 18 bottles in a cardboard box, or on pallets (8 cardboard boxes per layer, 4 layers on a pallet, a total of 576 pieces in 32 cardboard boxes).

#### QUALITY:

- The product quality is regularly checked in the manufacturer's laboratories.
- The distributor applies the certified quality management system, according to ISO 9001.

#### DISTRIBUTOR:

LASSELSBERGER, s.r.o., Adellova 2549/1, 320 00 Plzeň – Jižní Předměstí

#### VALIDITY:

Since 1 August 2013
