

TAURUS GRANIT praxisgerechte Qualität

Attraktivität, Funktionalität und vor allem Qualität sind wesentliche Vorteile unserer Serie Taurus GRANIT. Bei den Reliefoberflächen wird Wert auf die hohen technischen Ansprüche gelegt, vor allem die Rutschfestigkeit, wohingegen der Vorteil der polierten Oberflächen ist außer der Qualität auch der ästhetische Aspekt. Strukturierte Oberflächen, die auf besondere Ansprüche hinsichtlich der Rutschsicherheit reagieren, sowie Ergänzungs- und Formteile für spezielle architektonische Situationen, vervollständigen dieses erprobte Programm für praxisgerechte Lösungen.

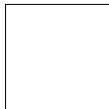

TAURUS GRANIT proven quality

Important benefits of the Taurus GRANIT series were and remain quality, functionality and strength. A upgraded palette of colours corresponds with the offer of day and night colours of the series ColorONE and ColorTWO and supports both the creative and variable potential of particular projects. In case of relief surfaces, high technical demands are accentuated, primarily the slip resistance, while the advantage of polished surfaces is apart from the quality also the aesthetic aspect. In addition, shaped pieces and other specialities form an integral part of the Taurus GRANIT for perfect system solutions, as well as meeting demands for quality and functional special pieces.

TAURUS GRANIT qualité éprouvée

La qualité, la fonctionnalité et avant tout la résistance sont les avantages importants de la série Taurus GRANIT. La palette de couleurs correspond à l'offre des couleurs de jour et de nuit des séries ColorONE et ColorTWO et supporte ainsi le potentiel créatif et variable de différents projets. Dans le cas de surfaces embossées, l'accent est mis sur les exigences techniques élevées, en particulier la résistance au glissement, tandis que les surfaces polies ont pour avantage non seulement la qualité, mais aussi l'aspect esthétique. Destinés aux solutions systémiques parfaites, les accessoires fonctionnels, les carreaux façonnés et d'autres éléments spéciaux font partie intégrante de la série Taurus GRANIT.
